AXOR. THE CATALOGUE  
FORM FOLLOWS PERFECTION

## FORM FOLLOWS PERFECTION

Three words that change how we think, create and produce: Form Follows Function. It is a principle that equates to a revolution. No form and no function can be considered in isolation. What distinguishes AXOR is greater. Not ending the developmental process until there's nothing left to be added or removed. Until the product is more than the combination of form and function. With this aspiration in mind, we develop, design and produce taps, showers and accessories. For bathrooms and kitchens. With the world's best designers. Full of pioneering innovations without compromises. In perfection.

[axor-design.com](http://axor-design.com)

THE STRIVE FOR  
PERFECTION.

Moving boundaries. Overcoming technological limits.  
Perfecting ground-breaking developments. AXOR is the  
ultimate. The decisive extra. Of perfect quality and precision.  
Leading the way through our manufacturing processes.  
Opening new horizons and striking out in new directions.  
Combining state of the art technology and craftsmanship. To  
turn ground-breaking products into reality. Enabling the ideas  
of globally renowned designers to find their perfect form.

AXOR perfection is quantifiable. In parts per million. Hundreds  
of thousands of flawless mixers, showers and accessories put  
themselves against a single deviation. Imperceptible. Yet still  
reliably identified. Each product is a perfect image of the ideal.  
In the eyes of the most experienced AXOR experts. And in the  
inspection reports of the measuring devices.

Fire. Counterpart of water. The source of each AXOR mixer. Liquid brass bars flow out of stone pipes. Are cast in forms. An archaic moment. Like a volcano. 1000 °C of hot metal wraps itself around a grain of sand. For inner cavities which are every bit as perfect as the surfaces. For maximum durability and minimum noise levels in operation. Every flow area individually designed. Perfect. No compromises. Like the element water itself.

Once cooled, the machines chisel out elaborately detailed contours. Cut screw threads and fits. Trim and polish. Controlled by artificial intelligence. Every step of the process is a masterly demonstration of perfection. Where technology reaches its limits, humans take over. With years of experience, instinctive feeling and power. And years of experience. Every movement practised a thousand times over. With acute awareness for every detail of every product.

AXOR surfaces have depth. In particular, the polishing is a fine art. It is the many production paths which produce perfection in every form. Humans and machines join forces to prepare the way for avantgarde. Trendsetters for water design.

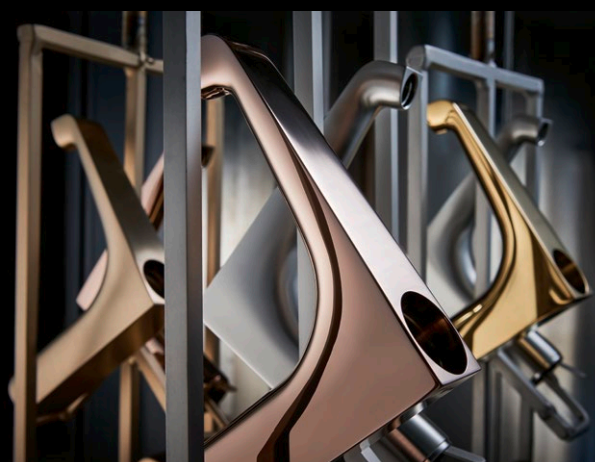

Up to 38 dives. Two hours. Exactly 0.4  $\mu\text{m}$  chrome.  
Perfection in electrolytic bath galvanisation. Perfectly  
coordinated. With the necessary patience. For  
unique quality. Chrome adds glamour and shine to  
AXOR products. Durability. Desirability. Perfected  
through an exceptional instinct for finishing touches.  
Making surfaces gleam. Sensual to the touch.

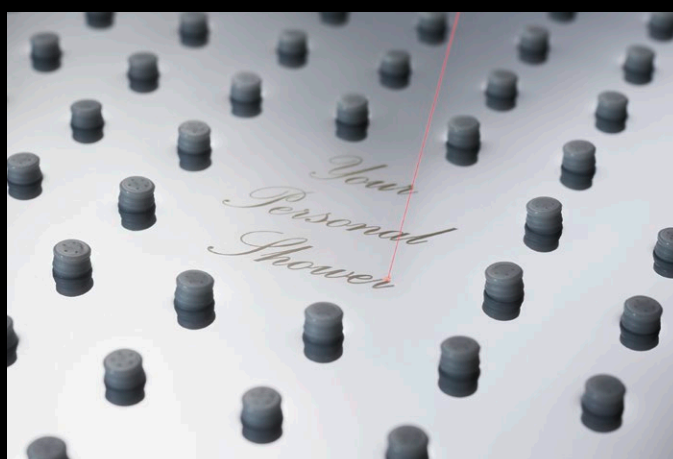

Luxury at AXOR means fulfilling personal wishes. Engaging with preferences. And architecture. Individualisation par excellence. An example: AXOR FinishPlus special surfaces. Hardened and given shine in the vacuum of PVD chambers. Physical vapour deposition. Zirconium atoms vaporise. Attach themselves to the chrome surface.

Change the structure, the feel, the colour. Add an amazing shine and new colour to the object. And make it more robust in the process. An exclusive finish in 15 special colours. Completed by expert hands. From polished red gold to brushed black chrome. Each single colour results from intense development.

Adding a finish to the surface isn't enough. AXOR also changes the shape. On request, and by hand. Customised for preference or necessity. Each mixer as precise as its standard counterpart. Whether it's the distance from the wall to the sink which necessitates an extension. Or a desire for modified tap handles. A unique mixer as an expression of a unique personality. Including initials or a signature. Manufactured by the most experienced and qualified AXOR experts. By hand. In perfection.

Besides perfection in manufacture and finishes, AXOR works on principles: Everything starts with an idea. Developing these ideas authentically is what turns ingenious ideas into ground-breaking products. Iconic products for the sink, shower or bath. With radical twists. Invisible to the human eye.

Timeless. And always a challenge for the AXOR research and development teams. Construction processes are as elaborate as the designer's ideas. Both come together in the AXOR headquarters. Leading development expertise and the inspiration of globally renowned designers.

AXOR Starck

AXOR STARCK

AN ARCHETYPE.  
IN PERFECTION.

29

AXOR Starck is the realisation of a perfect idea. An interpretation of historical well pumps. An archetype. Familiar in form. Uncompromising in function. A statement of reduction. To the essence. Towering over bathrooms everywhere for more than two decades. AXOR Starck was

more than a stroke of genius. AXOR Starck is a milestone in bathroom design. And is seen as a design classic today. In perfection.

Design: Philippe Starck

Minimalism, right down to the mixer handles.  
AXOR Starck mixers are simple to use. Consistent,  
like the design. With single lever mixers.  
Classic feather handle. Or modern pin handle.  
Containing joystick technology. With ultra-slim  
cartridges. A revolution in 1994. Developed in  
honour of reductionism. Form Follows Perfection.

Perfecting the original state. Like the AXOR Starck shower column with generously sized overhead shower, integrated thermostatic mixer and baton hand shower. Simple forms, combined in an uncompromisingly minimalistic manner. A circle. A cylinder. A bar. Combined to create a work of beauty.

The archetypical shape with diagonal spout. Linear. Clear. Original. AXOR Starck for the bath. Water flows like from a classic water pump. Resolutely interpreted in a floor-mounted mixer for freestanding baths. Luxury in minimalistic form. In perfection.

41

Sense and sensibility. In perfection.  
Modelled on nature. In its sheer  
beauty and efficiency. AXOR Starck  
Organic combines both in a resolutely  
avant-garde design. With a sculptural  
appearance. In sensually organic forms.

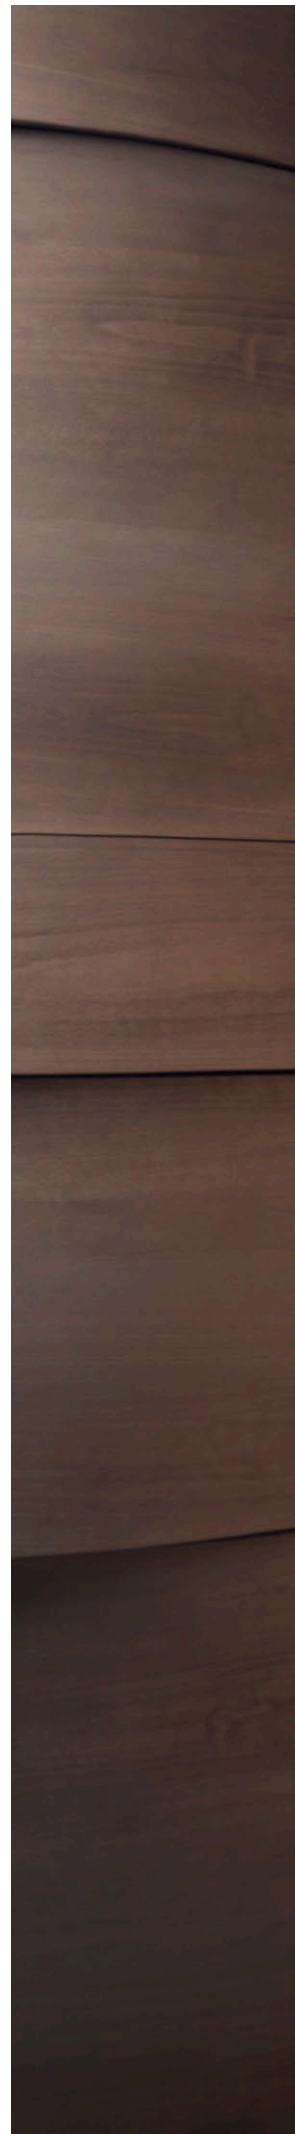

In water design. In its minimalistic use of  
resources. As nature would have intended.  
In perfection.

Design: Philippe Starck

42

Sensual and powerful. Facets of nature. AXOR Starck Organic invokes beauty: a branch, a drop of water. Tap handles melt with the body to create an organic whole. Water volume and temperature are separate – an exceptional concept for water regulation.

The mixer shower spray is innovative. Enabling people to experience the sensuality of water. As a soft tingling on the skin. Consistently minimalistic approach to water. Using just 3.5 litres of water per minute, AXOR Starck Organic sets new standards in the bathroom. Winner of the Green Product Design Award.

45

Taking a bow to nature. In organic design. Exciting down to the last detail. The AXOR Starck Organic shower set. The diverter for the baton hand shower has a flowing design. Both the handles and the thermostat are consistently organic in design: like natural drops of water.

Sculptural. Organic. The extravagant floor-standing thermostatic bath mixer. With innovative controls. Water flow is regulated in the spout. The temperature is regulated via a separate handle. Energy-saving thanks to pre-set temperature. Sustainable and user-friendly for excellence.

AXOR Citterio

AXOR CITTERIO

STRIKING AND BRILLIANT.  
IN PERFECTION.

57

AXOR Citterio brings together the best in a single collection. Corners, edges and abundant surfaces. They set the perfect stage for the fracturing of light. Expansive radii. Forged with precision. These elements make the collection into

a masterpiece of 1930s neo-classicism. And into a monumental design object on the washbasin. In perfection.

Design: Antonio Citterio and Toan Nguyen

A monument. On the washbasin. A design with angular and rounded shapes. With ultraglossy surfaces and soft, perfectly crafted radii. Particularly striking: the handles. Angular. Precise. As cross handles. Or as single lever mixer.

AXOR Citterio makes a striking statement. Charismatic appeal for the bathroom. This masterpiece is a true gem in any one of its 15 exclusive AXOR FinishPlus special surfaces. Brushed or polished. From gold optic to black chrome.

Luxury in the shower. AXOR Citterio shower heads. Special experience with the shower pipe. Invoking elements of striking neo-classicist style. With thermostatic mixer, plate overhead shower and three water stream settings in the hand shower. RainAir, Rain or WhirlAir. From soft to pleasant to powerful. A trilogy of water. In perfection.

Impact. On the bathtub. The perfect example: the AXOR Citterio four-hole bath mixer. Maximising space. And charisma.

AXOR Citterio E

AXOR CITTERIO E

A SYMBIOSIS OF OPPOSITES.  
IN PERFECTION.

65

A symbiosis of opposites. In perfection. Harmony occurs in the calm balance of opposites. And thereby perfect beauty. As the Pythagoreans discovered in ancient times, the essence lies in finding the right proportions. AXOR Citterio E perfects the beauty of proportions, combining round and

angular elements. With the new and the familiar. With the classic and the contemporary. Balanced right down to the last detail. In its design. And its feel. To create taps and showers of timeless elegance. In perfection.

Design: Antonio Citterio

66

Tapered. Angular. Round. Three different basic designs create a harmonious whole. With tapering surfaces and handles. Quadratic escutcheons. And circles. Invoked in each tap. The result is timelessly elegant. That's what the E in AXOR Citterio E stands for.

A symbiosis of opposites. Designed according to the laws of harmony. Which say that beauty is born of contrasts. The modern, tapering spout in combination with classically designed cross handles. A modern lever and traditional mixer design. Contrasts in perfect harmony.

68

Ideal interplay. For perfect elegance. In the shower. A harmoniously balanced ensemble. Consisting of overhead shower and thermostatic module. AXOR Citterio E stands for elegant showers. In combination here with the AXOR overhead shower 460/300 2jet.

A textbook example of luxury: the AXOR Citterio E thermostatic mixer for free-standing baths. User-friendly. Intuitive reverse function. And integrated shower holder. Elegance in perfection.

NATURE AND ITS ELEMENTS.  
IN PERFECTION.

83

Water. The principle of all things. Source of well-being and composure. Even more in its natural form. As a sensual waterfall. Like AXOR Massaud. The collection perfects the connection between people and nature. Consistent with the principles of organic architecture. A look radically

inspired by the elements of nature. Demechanised. To celebrate the moment - with water rather than with fittings. In perfection.

Design: Jean-Marie Massaud

Organic designs. Magic and emotion. A blade of grass.  
The surge of a natural waterfall. Source of tranquility and  
contemplation.
