AXOR SHOWERS
FORM FOLLOWS PERFECTION

FORM FOLLOWS PERFECTION

05

Three words that change how we think, create and produce: Form Follows Function. It is a principle that equates to a revolution. No form and no function can be considered in isolation. What distinguishes AXOR is greater. Not ending the developmental process until there's nothing left to be added or removed. Until the product is more than the combination of form and function. With this aspiration in mind, we develop, design and produce taps, showers and accessories. For bathrooms and kitchens. With the world's best designers. Full of pioneering innovations without compromises. In perfection.

axor-design.com

AXOR SHOWERS

THE ULTIMATE
FOR THE SHOWER.
IN PERFECTION.

Avantgarde in design. An immaculate sense of space.
A captivating water experience. AXOR products are the ultimate in shower design. An homage to the precious element that is water. A perfect design object for the body. For the soul. For the room. Making the shower a place to be savoured. Luxury for the body.

Every drop is perfectly and precisely shaped. Full of revitalising energy. Gentle, enveloping and sensual. Perfect overhead showers and shower systems give the technology a perfect form. Particularly the AXOR ShowerHeaven 1200/300 4jet, which features a brand-new element in water design – the gentle PowderRain.

AXOR showers include overhead showers, hand showers, side showers and shower systems. In a wide variety of shapes and forms – from round and angular to avantgarde. Made of pure metal. With one or more spray modes. In chrome or refined in 15 exclusive AXOR FinishPlus surfaces. In perfection.

Design: Phoenix Design, Nendo, Front,
Barber & Osgerby, Philippe Starck

POWDERRAIN

GENTLY ENVELOPED. IN PERFECTION.

A soft rain in the shower. Gently enveloping like a protective coat of water. Quiet and soft, yet powerful. A unique feeling. Like a cocoon of pure water.

PowderRain is the result of intensive research. The spray lab experts spent almost six years perfecting it. Pushing the boundaries. Soothing the sensitive skin receptors. To find out just how fine a jet of water can be. For a velvety-soft feeling on the skin.

An unexpected, completely new kind of experience. With the finest silicone nozzles lending water elegance in small drops. Distributed among the smallest openings in a nozzle. Precise. While reducing water consumption at the same time.

PowderRain unfolds its magic in AXOR ShowerHeaven 1200/300 4jet, AXOR overhead shower 350 1jet and AXOR Showerpipe 800. Masterpieces of design and water. In perfection.

AXOR SHOWERHEAVEN 1200 / 300 4JET

Luxury taken to a new level. AXOR ShowerHeaven is a new archetype in the shower. With maximum appeal. And scope. Where water takes the stage. And assumes a variety of forms: from revitalising jets to soothing shower rain. Including the gentle PowderRain – the latest AXOR innovation in water design. Precisely distributed drops. Gently enveloping. A cocoon of water. An elegant ballet. Borne of precise technology. That can be adapted optimally to the user. In perfection.

Found on pages 08 and 09 in combination with the Select thermostat module for five outlets. Perfect in form and function. Visually reduced to the minimum. Intuitive in operation. To control all spray modes. Individually or combined.

SHOWERHEAVEN 1200 / 300 4JET

Unique in every dimension:

Highlights of AXOR ShowerHeaven 1200/300 4jet.

- / A masterpiece featuring the leading AXOR technologies such as the spray innovation PowderRain
- / Shower solution that offers high functional diversity in a reduced design
- / Ceiling installation with concealed basic set and only two connections, creating a sense of weightlessness
- / Four different spray modes – from revitalising jets and soothing shower rain to velvety-soft PowderRain
- / Body jet: sensual, enveloping luxury with the new PowderRain spray mode, covering the body from both sides
- / Users can adjust the body jet to any height to avoid getting their hair wet
- / Rain jet: large area for a perfect shower experience that feels just like summer rain
- / Mono jet: concentrated, soothing relaxing jet for a real spa feeling
- / Resource-friendly use of water: maximum of 30 l/min per 1/2" standard connection
- / Available either with or without indirect LED lighting in two colour temperatures, for atmospheric light in the shower
- / Body made of pure metal
- / AXOR FinishPlus special surfaces fulfil individual wishes
- / Developed by AXOR together with Phoenix Design

Rain jet:

- / Shower rain that surrounds the whole body
- / Geometric spray field, perfectly adapted to the user's body
- / Spray field, 460 mm in width
- / With QuickClean function
- / Flow rate: 16 l/min

Mono jet

- / Concentrated laminar jet
- / Flow rate: 15 l/min

Optional lighting:

- / Indirect light
- / Energy-efficient LED lamps (5 W in version 2700 K)
- / Power supply: Input voltage 100–240 V AC, 50–60 Hz/output voltage 24 V DC
- / Colour temperature warm white 2700 K or neutral white 3700 K
- / 125 lm/W light output
- / Including 7 m connection cable
- / Lighting controlled by a separate switch outside the shower

Mechanical wings:

- / Movable flaps that open under water pressure
- / Body jet can be angled to suit different user heights
- / When not in use, the flaps close to form an even surface that is ideal for cleaning

Body jet with PowderRain:

- / Velvety-soft shower rain
- / Head remains dry
- / Can be controlled separately
- / With QuickClean function
- / Flow rate: approx. 15 l/min

AXOR SHOWERHEAVEN 970 / 970 3JET AND AXOR SHOWERCOLLECTION

Every element is luxury squared. Geometric – minimalistic design. The AXOR ShowerCollection is a system. One that can be set up and combined with maximum flexibility. Vertically and horizontally. Or arranged unconventionally on the wall. With three spray modes in the large overhead shower. A shower that serves as a customised spa for individual water orchestration. Especially impressive when combined with AXOR ShowerHeaven 970/970.

AXOR SHOWERHEAVEN 970 / 970 3JET

18

Luxury squared:

Highlights of AXOR ShowerHeaven 970/970 3jet.

- / Exceptionally large overhead shower in two sizes (970/970 mm and 720/720 mm) with reduced design
- / Three different spray modes: Rain jet, RainAir jet, Mono jet
- / For concealed ceiling-flush or ceiling-exposed mounting
- / Available either with or without ambient lighting for atmospheric light in the shower
- / Spray disc surface made of polished stainless steel
- / Available in special surfaces on request
- / Developed by AXOR together with Philippe Starck

AXOR SHOWERCOLLECTION

AXOR ShowerCollection thermostatic module 360/120:

- / Up to three outlets used simultaneously
- / Plate made of pure metal
- / Simple installation and exact alignment

AXOR ShowerCollection 120/120 1jet shower module:

- / Can be used as side or overhead shower – individually or combined
- / Water jets can be adjusted horizontally or vertically
- / Precisely linear installation with just 10 mm between individual modules – predefined by the basic set

AXOR ShowerCollection lighting module 120/120:

- / Atmospheric lighting
- / Can also be used in the shower
- / Concealed installation

Haute couture in perfection:
Highlights of AXOR ShowerCollection.

- / Modular system of freely installable showers, mixers and accessories such as lighting and loudspeaker modules, turning the shower into a customised spa
- / Flexibly installable side showers for individual water orchestration
- / Can be combined with all AXOR Showers products and all AXOR collections
- / AXOR FinishPlus special surfaces fulfil individual wishes
- / Developed by AXOR together with Philippe Starck

AXOR OVERHEAD SHOWER 250 / 580 AND 460 / 300 WITH AXOR THERMOSTATIC MODULE SELECT

Geometric clarity. Striking – right down to the very last detail. The defining shape of the rectangle. From the overhead shower to the wall or ceiling plate. Made of pure metal, the jet disc produces a variety of sprays: from the flood jet for gentle neck massages and the concentrated powerful mono jet to the sensual rain sprays – depending on the version. One hundred per cent energisation. One hundred per cent regeneration.

Combined for example with the AXOR thermostatic module Select. The technical counterpart to the element of water. Clear in appearance, impressive in performance. Timeless and elegant. Perfect integration in the room. Intuitively easy to use thanks to its large Select buttons. Precise switching at the touch of a button. Purely mechanical.

AXOR ONE THERMOSTATIC MODULE

Temperature regulation:

- / Precisely controllable with the large, cylindrical knob
- / Safety stop function limits temperature to 40 °C
- / Maximum temperature limitation adjustable

Outlet control:

- / Large Select paddles turn the water on and off easily
- / Full control when operating with fingers, hands or even elbows
- / Up to three outlets can be activated – separately or at the same time
- / A porter can be added

Volume control:

- / For economical water consumption
- / Volume control reduces water flow continuously by up to 50% – depending on flow volume and installation situation

Operation:

- / Large symbols on the paddles indicate clearly which outlet is being used
- / The paddle symbols can be applied easily after installation

Interaction as a design principle:

Highlights of AXOR One thermostatic module.

- / Confident unit of form and function
- / All functions combined in a single element
- / Intuitive, manual operation
- / Precise volume control for reducing water consumption continuously
- / AXOR FinishPlus special surfaces fulfil individual wishes
- / Developed by AXOR together with Barber & Osgerby

AXOR ONE HAND SHOWER 2JET

Hand shower:

- / Uniquely striking design
- / Fully integrated handle

Select button:

- / Users can switch between spray modes quickly and easily using the Select button

Spray modes:

- / Hand shower with normal jet and flood jet
- / Normal jet for showering the body
- / Flood jet for concentrated neck or head massage
- / With QuickClean function
- / Flow rate: max. 12 l/min

A wide band of water:

Highlights of AXOR One hand shower 2jet.

- / Unique design of hand shower combines edges and curves to form a perfect unit
- / The perfect addition - for example to the AXOR One thermostatic module
- / High-quality and precisely manufactured metal body
- / Intuitive operation using Select technology
- / Two spray modes - normal jet and flood jet
- / Horizontally positioned hand shower enhances the revitalising wellness effect of the flood jet
- / AXOR FinishPlus special surfaces fulfil individual wishes
- / Developed by AXOR together with Barber & Osgerby

AXOR INDIVIDUALISATION
AND INSPIRATION

AXOR FINISHPLUS

REFINED.
IN PERFECTION.

Brilliant. Robust. Durable. AXOR FinishPlus surfaces are exceptional. Ten times as hard as electroplated mixers. With an outstanding colour brilliance. Extremely resistant. Created by using the highly complex physical vapour deposition (PVD) method

for coating surfaces. Zirconium molecules evaporate. In a vacuum. Produced to high quality standards. Ultraprecise. Particularly impressive in the brushed variants.

AXOR FinishPlus. Available in 15 exclusive special surfaces. Also based on individual specifications. Theoretically, any preferred colour is possible. In practice, a feasibility test is conducted by AXOR experts first. To make a special product into something quite unique.

AXOR SIGNATURE

UNIQUE PRODUCTS.
IN PERFECTION.

The fascination for the exceptional. The desire for more individuality. AXOR Signature turns bathroom mixers into something truly unique. A design object into a completely personal shower. Something special into something unique. Geared towards the needs and tastes of the customer. Lengthening, shortening, refining, lettering – these are the exclusive services provided by AXOR Signature.

The perfection of the unique products takes place at the AXOR workbenches in Germany. With the utmost in care and precise craftsmanship. So that a unique product emerges. Exceeding even the customer's expectations. In any quantity required. Meeting industrial standards. At the highest technical level. In perfection.

SPA IN THE FOUR SEASONS HOTEL, MILAN.

AN OASIS OF LUXURY.

Classy. Golden. Warm. The spa in the five-star Four Seasons Hotel in Milan. An elegant wellness oasis measuring over 800 square metres. Formerly a magnificent vaulted cellar. Today a temple for the senses. With a pool and quiet areas, with an atmospheric fitness and beauty area.

The ambience. Sets the highest standards in the bathroom. A special kind of architecture. Exquisite interior design. Perfection in the light concept. The standards for materials are equally high: natural stone, exquisite wooden surfaces, decor that is fascinating to the touch.

Making its mark even in this environment: AXOR mixers and shower jets. The expectations go far beyond design language and object quality. Extending to exclusive surfaces. They provide additional radiance to luxurious bathrooms.

For the Four Seasons AXOR created mixers, showers and accessories in exclusive AXOR FinishPlus special surfaces. Polished and brushed gold optic. They make the spa a perfect example of luxurious perfection taking centre stage. Created by designer and architect Patricia Urquiola.

SPA IN THE FRUTT FAMILY LODGE IN THE SWISS ALPS.

GOLDEN MOMENTS.

A resort like a rock. One with the surrounding mountain panorama. Situated on a high plateau in the Swiss canton of Obwalden. 1,920 metres above sea level. An oasis for travellers all year round. But particularly in the winter when the mountains are covered in a magical white.

The spa forms a pleasing contrast to the winter landscape. Located spaciously at the base of the building complex. Perfectly mysterious. Cut off from the outside world. A spa area that calls to mind oriental hammams. That plays with light and shade. With both darkened nooks and light-flooded areas.

Here is where AXOR mixers and shower jets truly make their mark. Refined through special surfaces. In brushed gold. Fitting well in a spa context is the well-like AXOR Starck V mixer with its characteristic vortex. Adding the perfect finishing touches to the shower areas is the AXOR LampShower. Bathing users in a sensual light. The overhead showers are accompanied by AXOR Citterio thermostatic mixers with cross handles. Like a precious gem on the wall.

A perfect space that already exudes relaxation. Soothing the soul. Creating an unmistakably warm atmosphere. Enhanced by an AXOR FinishPlus special surface. A uniform touch of colour that gives off endless radiance.
